Customer Problem Statement Template

I am	A farmer who wants to improve crop yield using scientific farming practices.
I'm trying to	Select the most suitable crop using soil nutrients (N, P, K), pH, temperature, humidity and
But	I do not have scientific guidance or intelligent tools.
Because	Traditional farming relies on experience instead of data-driven analysis.
Which makes me feel	Confused, uncertain, worried about crop failure and financial losses.

Final Customer Problem Statement

A farmer wants to select the best crop based on soil and climate conditions but lacks scientific guidance. OptiCrop uses machine learning to recommend the most suitable crop, improving productivity and reducing farming risks.
