

Team Involvement in Demonstration

Date	
Team ID	
Project Name	OptiCrop - Smart Agricultural Production Optimization Engine
Maximum Marks	1 Mark

Team Involvement in Demonstration:

This document records the active participation and roles of each team member during the project demonstration. It ensures that every member contributes meaningfully to the presentation and that responsibilities are distributed fairly and clearly.

S.No	Team Member Name	Role in Demo	Section Presented	Contribution Summary	Participation (Active / Passive)
1	Amarthala Kanthi Sri	Team Lead	Live Feature Demonstration: - Crop Recommendation - Suitability Analysis - Research Dashboard	Led the team throughout the project. Built frontend HTML/CSS/JS pages. Presented live walkthrough of all 3 main features. Handled Q&A session.	Active
2	Anumakonda Janakiram	Team Member	Data Pre-processing & Model Building: - K-Means Clustering - Logistic Regression - Model evaluation & saving	Developed and evaluated all 6 ML models. Performed data pre-processing (null values, outliers, train/test split). Built K-Means clustering with PCA. Explained model performance metrics during demo.	Active
3	Sai Naga Hansika Mukkollu	Team Member	Dataset & EDA: - Univariate/Bivariate/Multivariate analysis - Null value	Performed comprehensive EDA on Crop_recommendation dataset. Created data distribution visualizations.	Active

			checking - Outlier handling	Presented key insights, patterns, and correlations found in the dataset.	
4	Baby Jahnavi Madiseti	Team Member	Literature Survey & Deployment: - Literature survey - Social & business impact - Architecture & deployment	Conducted literature survey on existing crop recommendation systems. Documented social and business impact. Handled Vercel + Render deployment. Presented architecture and deployment flow.	Active
5	Ramya Sri Dasari	Team Mmber	Introduction & Planning: - Problem statement - Entity Relationship Diagram - Project workflow - Business requirements	Defined the business problem and project scope. Created ERD and workflow diagrams. Documented business requirements. Delivered opening presentation on agricultural challenges and project objectives.	Active

Team Coordination Notes:

Aspect	Details
Team Leader / Coordinator	Amarthala Kanthi Sri
Overall Team Coordination Rating (1-5)	5 / 5 - Excellent coordination. All members communicated daily via WhatsApp, attended weekly Google Meet syncs, and used GitHub for collaborative development. Each member completed assigned tasks on time.
Any issues during demo	Minor issue: Charts initially showed "Unavailable" in dashboard due to relative URL resolution across different origins. Fixed by prepending API_BASE to chart image URLs. Also fixed Chart.js canvas being destroyed by innerHTML += operations.
How issues were resolved	Root causes identified via browser console debugging during rehearsal. Applied fixes: (1) Added API_BASE prefix to chart image src in dashboard.html, (2) Restructured renderDashboard() to build all HTML as single string before renderChart(). Both fixes verified before final demo.
