

Sprint Planning Logic - OptiCrop

Sprint: A fixed period during which the team completes planned tasks.

Epic: A large feature divided into smaller user stories.

Story: A small functional task.

Story Point: Effort estimate using Fibonacci scale (1,2,3,5).

1 - Very Easy

2 - Easy

3 - Moderate

5 - Difficult

Sprint 1

Epic 1 - User Management

User Story	Story Point
USN1 User Registration	2
USN2 User Login	2
USN3 Forgot Password	1

Total Story Points: 5

Epic 2 - Soil Data Collection

User Story	Story Point
USN4 Enter Soil Details	3
USN5 Upload Soil Report	2
USN6 Validate Soil Data	3

Total Story Points: 8

Sprint 2

Epic 3 - Crop Recommendation

User Story	Story Point
USN7 AI Crop Recommendation	5
USN8 Fertilizer Recommendation	3
USN9 Irrigation Recommendation	3

Total Story Points: 11

Epic 4 - Weather Module

User Story	Story Point
USN10 Weather Forecast	3

USN11 Rainfall Prediction	2
---------------------------	---

Total Story Points: 5

Epic 5 - Disease Detection

User Story	Story Point
USN12 Upload Leaf Image	2
USN13 Disease Detection	5

Total Story Points: 7

Sprint 3

Epic 6 - Dashboard

User Story	Story Point
USN14 Farmer Dashboard	3
USN15 Recommendation History	2
USN16 Yield Prediction	5

Total Story Points: 10

Epic 7 - Market Information

User Story	Story Point
USN17 Market Price Updates	3
USN18 Nearby Market	2

Total Story Points: 5

Epic 8 - Testing & Deployment

User Story	Story Point
USN19 System Testing	3
USN20 Bug Fixing & Deployment	5

Total Story Points: 8

Velocity

Sprint 1 = 13

Sprint 2 = 23

Sprint 3 = 23

Total Story Points = 59

Number of Sprints = 3

Velocity = $59/3 = 20$ Story Points per Sprint.
